

IV Therapy FAQ

How often am I able to do an IV therapy treatment?

Most of our treatments can be done weekly or biweekly.

How soon can I feel the effect?

Normally you are feeling the effect within 24 hours of treatment if not sooner.

Is there anything that interferes with the treatment?

We do a comprehensive history on our patients to make sure that IV nutrition is right for them. Patients with severe kidney disease are not candidates for this treatment.

What are the benefits of IV nutrition?

Patients that receive IV Nutrient Therapy experience an increase in energy levels, they usually perform better in their daily activities and feel more energized throughout the day. It improves the performance of cells and boosts the immune system, making you less prone to infection.

IV Therapy Options

VitaWell \$100

Welcome to wellness and promote health from head to toe with this master mix of essential vitamins, minerals and amino acids. Our most common IV infusion is ideal for soothing the symptoms of fatigue, inflammation, asthma, detoxification, immune disorders, hypertension and cardiovascular disease. This curative cocktail is based on Dr Myer's original mixture of magnesium, calcium, B complex vitamins and vitamin C.

VitaHydration \$85

Quench your body's need for nutrients with this replenishing, rehydrating treatment. If you are feeling fatigued or dehydrated, this revitalizing treatment can give you the vitamin B12 energy boost you want, along with the complex B vitamins you need. It will give you hydration you are craving to feel your best. This energizing IV can help you meet the demands of your active lifestyle.

VitaSkinhealth \$125

We use the advances of IV nutrition to infuse your body with antioxidants, detoxifiers and hydrators that make your skin look younger, refreshed and energized.

VitaActive \$125

Repair, rebuild and revive your body to mend your muscles and enhance your recovery with this restorative treatment. This IV nutrient is ideal for the prevention of muscle breakdown, enhanced endurance, muscle and tissue repair, and promotes faster athletic recovery. This formula is based on the VitaWell blend with the addition of potent amino acids and electrolytes to help you perform better, recover faster, and feel your best.

VitaLean \$125

Lean is the specialized formula based on the original VitaWell IV with added nutrients that increase fat burning and detoxification qualifications and add increased energy levels.

VitaImmune \$125

Our strongest anti-viral infusion provides the essential nutrients your body needs to protect you from illness and support adrenal health. Its high doses of immunity-building vitamin C, B vitamins, and other powerful antioxidants can only be fully and immediately absorbed through an infusion.

Nutrient IV PUSH can be added as a 5 minute additional push at the end of your IV session, maximizing the benefits of your time spent with us.

VitaFortified Push add on \$30

This is a immunity increasing infusion that delivers the benefits of glutathione, which is one of the most potent antioxidants. Its anti-inflammatory properties are extremely helpful in preventing disease, protecting your cells from free radical damage, eliminating toxins and enhancing immune system functions.
